## ANCIENT COINS

*It is with pleasure we offer this small but choice consignment of classical Greek and Roman coins for your consideration. The issues of Alexander the Great, the later kings of Macedon, the horsemen of Tarentum, the Athenian new style, and the Seleucids of Syria are just a few of the outstanding items.*

*The former owner was a discriminate collector with an appreciation of the artistic. His purchases were selected, in the main, from the trays of our distinguished colleague Dr. Hirsch and other important dealers. With this in mind estimates have been omitted and the question of price is left to the good judgment of the purchaser.*
